

City of Lafayette
Lafayette Library and Learning Center Project Bulletin

May 23, 2008

Construction Activities: The most visible activity was the ongoing construction of the timber system. The roof over the main Library space is complete. Work will continue over the Children's Area. The footings for the Community Hall foundation were poured. The piers for the drive-thru book drop canopy were excavated.

Library Public Art: Oakland Museum and City staff hosted a site visit for the finalist public artists. Concept proposals by the 11 artists and artist teams will be on display beginning June 9 through June 21. Postcards with the display details will be sent out to Library donors and others in the community beginning next week. Details will also be posted on the City's website next week.
