

City of Lafayette
Lafayette Library and Learning Center Project Bulletin

September 12, 2008

Construction Activities: Exterior walls of the Community Hall and Staff Wing continue to be framed as are interior walls throughout the building. The trellises on the Decks and Plaza and the portico over the Book Drop have been framed. Installation of the support system for the solar panels has begun.

Framing of the northwest corner of the Community Hall

Viewing through the east windows of the Staff Workroom

Supports for the upper tier of the solar panels

Family Reading nooks in the Children's Area

Framing for a skylight

Framing of west wall of the Technology Lab

Framing the west wall of the Homework Center

Ductwork being installed
in the Arts & Science Discovery Center

Portico over the Book Drop

Public Art: The Redevelopment Agency approved agreements with Brian Goggin and Kana Tanaka for the artworks in the Outdoor Plaza Corridor and the Children's Activity Deck. Brian and Kana have met with the architect and City and Oakland Museum staff to begin work on finalizing their conceptual proposals.
