

City of Lafayette
Lafayette Library and Learning Center Project Bulletin

October 23, 2007

Construction Activities

- ◆ Dewatering the site was required almost every day due to the rain. Construction was delayed because of the weather.
- ◆ Installation of utilities (plumbing, electrical, drainage) continued in the Basement.
- ◆ AT&T pulled its cables along Golden Gate Way.
- ◆ Waterproofing was laid on the floors in the Friends of Lafayette Library and Lafayette Historical Society.

Formwork for the retaining wall in the Parking Lot below Boswells was completed, and concrete was pumped into forms

Final floor finish of the parking area in the Basement

Installation of conduits in the Main Electrical Room

Installation of waterproofing in the Friends Book Room
