Lafayette Library and Learning Center Project Bulletin

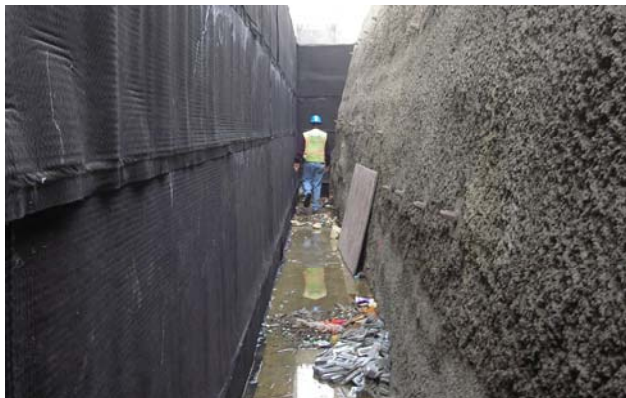

November 29, 2007

Construction Activities

The project is in the 36th week of construction. Activity has moved to the First Level with the installation of the deck, cabling, and rebar, and pouring of the parking floor.

Looking north at the completed Parking Lot retaining wall below Boswells

Walking between the Parking Garage wall and First Street

Installing rebar over cable conduit in the floor of the Telecommunications Room on the First Level

Looking west at the excavation for the ramp between the Basement and First Level parking floors

Looking east at the rebar installation for the ramp between the Basement and First Level parking floors

Looking east at the concrete pour for the First Level parking floor

Looking north at finishing the concrete pour for the First Level parking floor

State Grant

The California State Library Bond Administration Office has reimbursed the City \$3,080,772 to date.
