

City of Lafayette
Lafayette Library and Learning Center Project Bulletin

December 5, 2008

Construction Activities: On the interior, insulation and wallboard are being installed over the wiring and piping. More interior details are being added. On the exterior, the black waterproofing material is being installed on the walls.

Interior insulation around the Big Dipper windows
in the Children's Area

Skylight over the Children's Area

Insulation around the Family Reading nooks
in the Children's Area

Installation of the EXIT sign box
in the main Library space

Public Art:

Kana Tanaka has been onsite for the drilling of the holes and installation of the stainless steel sleeves for her public artwork on the Children's Activity Deck.

Then and Now:
